# goldilocks & how many bears...?

Whilst doing battle with her laundry, Goldilocks decides to set off for an adventure in the woods. Little does she realise that by the end of the day she will have met so many bears... But how many bears are there, and where are they all going?

Join Kinny Gardner in a highly diverting look at the old favourite with Krazy Kat's unpredictable mix of silly puppets, even sillier singing and lots of Sign Language.

'A magnificent theatre company, a precious group, both different and amusing, I adored it!' *El Mundo, Spain.*

REMEMBER  
this is a B.Y.O.B  
event: Bring Your  
Own Bear...
